## LOUDSPEAKER CABLE WITH CABLE LUGS

### TWIN MIX ONE

3.0 MM<sup>2</sup>

Excellently coordinated stereo loudspeaker cable for connecting AV receivers or amplifiers and loudspeaker boxes. The cable is preassembled with Oehlbach Solution cable-shoe connectors to allow convenient connections and guarantee a stable quality of transmission. This loudspeaker cable is suitable for amplifier performances of up to around 250 watts of power per amplifier channel. The cable is manufactured from three stranded strings of oxygen-free copper (OFC) and three stranded strings of silver-plated oxygen-free copper (SPC). The proportion of silver-plated conductors means that this special design considerably improves transmission properties, particularly in the treble/mid-tone range! This Oehlbach cable's outer sheath is made from a tough, transparent and highly flexible mix of plastics for very supple and flexible laying.

Connector material	solid metal plug
Inner conductor material	SPC/OFC - silver-plated oxygen-free copper, OFC - oxygen-free copper
cable geometry	Round
cable cross section	2 x 3.0 mm <sup>2</sup>
power max.	For amplifier performances of up to 250 watts
Features	Made in Germany, 30 years warranty, 24kt gold plated contacts
cable material	plastic
